

High Pressure Deck Wash

JEC Marine has developed a high pressure cleaner that is not just an adaptation of onshore models. The marine environment needs seawater corrosion resistance and DC operation for convenience and safety. Ideal for fixed installation onboard, the JEC High Pressure Deck Wash pump has been developed specifically for the marine environment. A deck fitting allows for easy attachment of a flexible hose combined with a handy, high pressure, submersible cleaning gun, making it ideal for deck, hull and underwater washing. It is suitable for both fresh and salt water, allowing switching between the two. Non-marking, custom hose lengths are available.

Specifications

Motor

JEC brushless 1,200W motor 24 - 28V DC at 50A.

Pump

Manufactured by world leading specialist Cat Pumps 8.5 l/min at 140 Bar (1.9 gal/min at 2,000 psi).

Dimensions

Length: 500mm

Width: 250mm

Height: 210mm

Accessories

- Pressure Gun
- Adjustable Pressure Valve Outlet
